26. Is there suitable area on the site to do so? ☐ Yes ☒ No

27. Describe why this project or appeal deserves special consideration:

The area behind the house is limited on space. These
add-ons will make the area more feasible for my family
and more accessible as well. Additionally a fence for sound barrier &
protection from gun range.

Exceptions to the CBPA requirements may be granted by the Board provided:

- (1) The requested exception is the minimum necessary to afford relief;
- (2) Granting the exception will not confer upon the applicant any special privileges that are denied to other property owners who are subject to these provisions and similarly situated;
- (3) The exception is in harmony with the purpose and intent of the CBPA Act and is not of substantial detriment to water quality;
- (4) The exception request is not based upon conditions or circumstances that are self-created or self-imposed;
- (5) Reasonable and appropriate conditions are imposed, as warranted, that will prevent the allowed activity from causing a degradation of water quality; and
- (6) Other findings, as recommended by the CBPA Manager and deemed appropriate by the board, are met.

In rendering its decision for Appeals, the Board shall:

- (1) Examine the language of this chapter to determine whether the language is clear or is subject to more than one interpretation;
- (2) If, in the opinion of the board, the language is clear, the board will require the applicant to show that his case is not within the intent of the regulation. In these cases, the board will assume that the administrative decision is correct and the applicant will bear the burden of proof;
- (3) If the language of this chapter is unclear, the board will inquire as to whether the decision made by the official involved is consistent with previous administrative determinations in similar situations;
- (4) If the administrative decision is consistent with prior decisions, the applicant will prevail only if the administrative decision is not within the intent and purpose of the ordinance and, therefore, so arbitrary or unreasonable that the board must substitute its own interpretation and overturn the administrative decision. If the administrative decision is both consistent and reasonable, the board will uphold it;
- (5) If the administrative decision is inconsistent with prior decisions, the Board will carefully examine all factors involved to ensure that the appearance of an arbitrary decision is overcome by a legitimate attempt to further the intent and purpose of this chapter.
